- Less supply/competition in winter
- New jobs start in Jan therefore relocation buyers are in Nov & Dec
- Some must buy before the year-end for tax reasons

### STAGING TIPS 101

-Clean! We mean every nook and cranny. Nothing says to a prospective home "This is a well cared for home," when it is sparkly clean. Don't forget the

outside of the home- a good pressure-washing on the outside of homes including sidewalk and driveway, & all the windows professionally cleaned is a must.

-Update old fixtures! Replace old vanity lights, outside porch lights, and don't forget all the faucets and knobs that giveaway the age of the home.

-Stage! A non-staged-home sits on the market 177 days vs. 34 days for a Staged home.\*

75% of Domaine's Staged homes sell on avg. within 15 days. It is a great ROI - Staging Sells.

### Early Retirement

This couple was sick of the rat race and wanted to retire to their farmhouse. Despite the economy, they wanted to put it on the market and wait it out. They Staged w/ Domaine and put it up for sale. This \$1.3mm property sold in 7 days! August 09
